Garbage

The frequency for household waste collection for all eligible premises is weekly. The collection of household waste will commence at 7:00 am.

The Solid Waste Collector will inform eligible premises that have metal garbage bin service of their collection day as it may differ from the designated day of collection for regular household waste.

Recycling

The frequency for recycling collection for all eligible premises is weekly. The collection of recycling material will commence at 7:00 am.

Organic Waste

The frequency for organic waste for all eligible premises is weekly from May 1st – Oct 31st and monthly from Nov 1st – Apr 30th. The collection of organic waste will commence at 7:00 am. Any unacceptable items listed on Schedule "B" are to be disposed of in the garbage.
