

MORINVILLE FIRE DEPARTMENT LOCK BOX SYSTEM

The Morinville Fire Department has initiated the use of the MIWA high security key box system. MIWA is known as the leading manufacturer of high security lock products. We have chosen a MIWA magnetic cam lock key, which is registered to our Fire Department with an assigned code, right from the factory. Because of the highly restricted design of the MIWA cam lock key, **it is not possible for even a locksmith to decode or make duplicate keys for this lock.** High security is greatly enhanced by MIWA's strict key control. Duplication is highly restricted and can be obtained only by signature authorization of the Fire Chief or their Designate. The box measures 115mm x 90mm and is 60mm deep (4 ½ x 3 ½ x 2 ½ inches). It is constructed of heavy duty cast steel with a reinforced interlocking cover.

For our own security, the Fire Department has a locked compartment in three vehicles in which they store this cam lock key. These vehicles are the initial response units which are the first arriving vehicles at any incident. One spare cam lock key is locked up with all Fire Department master keys in the fire hall. The entrance key to these three compartments is under strict control and monitored by the Fire Chief.

Any interested businesses and building owners can purchase the key boxes from the Fire Department. The Fire Department is able to assist in the installation if required. **We suggest the lock box be installed on the left side of the main door, 1 foot from the frame and 6-7 feet high.** Once the lock box is installed, we ask that a copy of ALL pertinent building keys be placed inside the lock box. IE: front and back door, boiler room, mechanical room, locked storage, locked rooms within the building. Should you wish to install the box please contact Morinville Fire department once completed.

Sincerely,

Brad Boddez
Fire Chief
Morinville Fire Department

LOCK BOX PROGRAM

PURCHASE PRICE: \$250.00

(heavy duty MIWA powder-coated steel box c/w high security MIWA lock)

INSTALLATION PRICE: \$115.50
